

SCIENCE FAMILY NIGHT

Walter Hill Students and their families are invited to join us for our STEM family night on Tuesday, February 26th! Come out and choose some fun, problem solving, creative, and mind blowing stations to complete as a family!

Can you create a bridge to hold the 3 Billy Goats Gruff? Or, can you design a building to withstand an earthquake? Can you create a marshmallow catapult, or make PVC pipes into an instrument? Would you like to create an air blaster to shoot paper turkeys or design a marble pinball-like maze? Come try these stations and so much more! There are 18 different stations you can choose from!

Pasta will be served for dinner! Families are asked to complete at least 2 stations before eating dinner! So, please plan on spending 30 min completing those before you eat! After you eat, you may complete as many stations as you want, as long as time permits!

When: Tuesday, February 26th– 5:30-7:00pm

Where: Walter Hill School

***Please RSVP by Friday, Feb. 15th, so we can plan for enough food and supplies! Return the bottom portion of this form!**

_____ Cut here– keep the top for your records_____

Science Family Night RSVP (one per family)
